OUR AIM

We believe that the best way to build a lasting and pleasant business is to produce the best plants possible and to sell them at a reasonable price.

When you receive a shipment from SPRINGBROOK GARDENS, the plants will be carefully packed, all of an even grade of the very finest quality, freshly dug from the fields. Throughout the flowering period, we go through our nursery removing any plant that is not true to name. At digging time when your order is filled, we use only plants which come up to our own exacting standards.

To maintain high standards, the income per acre is reduced but we know that prices must be reasonable to encourage larger plantings of our products. We depend a great deal on our customers recommending our products to others who are interested in flowering plants.

Your continued good will is essential to our continued success.

BOXING AND PACKING CHARGES

All boxing will be charged at cost.

BALLING AND BURLAPPING

All plant material which should be moved B&B is so marked in the catalog and the cost of balling is included in the price. Any material not so marked can be supplied B&B at 30c extra per plant.
